- Tax and invoice stubs
- Instalments stubs
- Utility bills
- Checks
- Traveller's checks
- Slips
- Subscriptions
- Return mail
- Pre-paid health assistance
- Barcoded Currency

Technical Features

Speed Selection

The operator can select the most suitable speed for each application, from the keypad, at any moment.

Manual Operation

Data and document batch header can be manually operated by means of the keypad.

Multiple Reading

It can read up to 6 codes in different lines on the same document.

Backlight LCD display

The display shows the number of documents read, equipment configuration, barcode type, speed, communication with the host and operation in batch or continuous mode.

Autonomy

The unit works as a smart peripheral, it does not need a PC for operation or configuration. Data can be transmitted to any host through an RS232C in continuous or batch mode.

High Data Capture Capacity

It reads up to 62 characters per line in any of the following codes: Code 128, I 2/5, C 39, Codabar, C 93 (optional). It can also read UPC and EAN.

Password

Access to the unit configuration can be restricted by means of a password.

Count

It can count documents without reading them.

Addition

Besides reading, the unit can add a certain field of the barcode in each document. (amount, number, etc.)

Host Command

Configuration, start, stop and other functions, if requested, can be commanded from the host.

Reading speed: 300, 450 and 550 documents per minute or up to 900 small ones

Height: 15" (38.1cm)

Width: 16.5" (41.9cm)

Depth: 14.5" (36.8 cm)

Footprint: 239.25 sq. Inches (1541.9 cm²)

Weight: 28.6 lbs. (13 Kg)

Feeding capacity: 5" (12.7 cm.) (aprox. 900 doc)

Reception capacity:

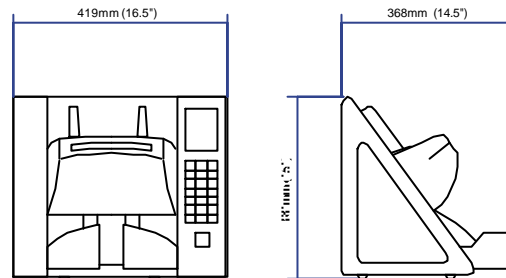

3"(7.62 cm) (500 read doc)

DOCUMENT SIZE

Minimum: 2.25" x 2" (5.71 cm x 5.08 cm)

Maximum: 8.5" x 4.5" (21.5 cm x 11.5 cm)

Width: 0.08 to 0.20 mm.
