

MOBILE PROTECT & CHARGE FOR VERIFONE E285

PROTECT YOUR DEVICE AND MAXIMIZE ITS POTENTIAL

Expertly designed for the Verifone e285, Mobile Protect & Charge from Havis provides an extra layer of defence from drops, is easy to install, and comes standard with access to the lanyard eyelet and an included belt clip accessory. The Verifone e285 Protect & Charge case can accommodate cable input and an optional charging base. The charging base utilises the built-in rail system on the Verifone e285 Protect & Charge Case, allowing the user to intuitively guide the device into the charger with a single motion. No more fumbling trying to find the right cable and locating the power port on the device. The Verifone e285 Protect & Charge base provides a simple and easy way to store and charge the Verifone e285.

- Unhindered access to all functions on the payment device including charging and data ports, buttons and camera
- Case provides an extra layer of protection against drops and scratches
- Tactile elastomer corners and edges for an improved performance and grip experience
- Single bay charging option available which can be secured to a counter or wall
- All payment methods (EMV, MSR, Contactless) remain functional when e285 is docked
- Exclusive rail system for easy and reliable charging
- Standard belt clip and lanyard options available (belt clip accessory included in box)
