Register – Simple, Modern EPOS

Modern Electronic Point of Sale (EPOS) is not just about executing payment, managing inventory and keeping records. It's about business management and providing a point of customer service. Register is a modern innovative EPOS application for Android that enables growth. Take card and cash payments, manage stock & customers, book appointments with text reminders, scan barcodes, centralized business reporting and much more. Provide service anywhere with fixed and mobile EPOS.

Move from a Point of Sale to a Point of Service
