## Solution Ready Design

**unitech**  
because we care

# Handheld terminal market

1. Replacement of DOS-based terminals by Windows based terminals
2. WIFI becomes the standard
3. Need for easy and quick software solutions
4. Bespoke software often too expensive for medium or small installations
5. Price war pulls overall price & margin down.

## The challenge

1. Resellers want to offer a complete solution which is easy and quick to integrate
2. Programming skills are sometimes limited or programming tools too complicated
3. Create more margins by offering a solution instead of “Hardware” only
4. Pricing needs to be very competitive
