Linea Pro® 7 UHF

For iPhone® 6s/7/8

Getting Started

The Linea Pro 7 UHF enables you to improve efficiency with the combination of a 1D/2D barcode reader and UHF RFID reader in one device.

Note:
Bluetooth is not available.

1. Place your iOS device in the Linea Pro 7 UHF using your thumbs.
2. Ensure the iOS device is seated securely.
3. Plug the USB Type-C end of the charging cable into the bottom of the unit.

Note:
Recommended 5V 2.4A power adapter is not included.

Barcode/UHF Reader

UHF tags may be read from a short-range distance of approximately 1m away.
1. Hold the scanner with the aimer facing the target barcode.
2. Ensure every bar and space between the bars are covered by the beam during the scanning.

UHF/RFID Reader

Optional high-frequency RFID functionality is available.

1. Tap the contactless card reading option in your iOS application.

Note:
Keep the face of the tag/card flat and as close as possible against the transmitter/receiver.

2. Place the RFID tag/card over the RFID label on the transmitter/receiver. The data is read from the contactless reader to the iOS device.

Battery & Device Status

LEDs	Description
Blue	• Rapid flashing indicates an active connection with the iOS device.
	• Slow flashing indicates there is no connection with the iOS device.
Green	• Rapid flashing indicates the battery is charging.
	• Solid green indicates the battery is fully charged.

Software Developers Kit (SDK)

You can simplify the software integration process using our SDK, which can integrate your existing platforms. Contact your Infinite Peripherals account representative or access **https://developer.ipcmobile.com** for complete details.

Troubleshooting

iPhone is not charging.

- iPhone is not properly installed in unit.
- The USB charging cable is not properly connected.
- The unit is not docked properly.

Scanner or RFID does not activate.

- Unit is not powered on or the battery is too low/fully discharged.
- Faulty scan engine/RFID reader.

Warnings & Cautions

- Do not deliberately stare into the laser beam of class 2 lasers.
- Keep the device away from liquids.
- Do not immerse the device in water.
- Device is intended for both indoor and moderate outdoor use.
- When not in use, store it in a cool, dry place.
- Do not store it near a heat source. Keep both the power supply and device away from direct sunlight and/or heat.
- All devices should only be repaired by Infinite Peripherals.
- When the battery is fully discharged and enters the Tamper Detect mode, it may only be reactivated by Infinite Peripherals.

Accessories & Additional Information

Contact your Infinite Peripherals sales representative for technical specifications and additional product documentation. For current and future offerings, visit our website, **https://ipcmobile.com/devices** or contact your Infinite Peripherals account representative for complete details.

Note:

The iOS device and any other additional items shown may not be included.

Warranty

Infinite Peripherals does not warrant, and is not responsible for, any damage to the Linea Pro 7 UHF ("Product") as a result of liquid or solid particle intrusion into the Product or damage caused by dropping the Product. If a material or workmanship defect arises with regard to any Infinite Peripherals product, and a valid claim is received within the Warranty Period, Infinite Peripherals (at Infinite Peripherals' sole discretion) will (1) repair the Product using new or refurbished parts, or (2) replace the Product with a new or refurbished Product. For purposes of this limited warranty, "refurbished" means a product or part that has been substantially returned to its original specifications. In the event of a defect, these are your exclusive remedies.

Note:

Box contents and part numbers may vary based on your order configuration.

Product Returns

Use the link in step 1 to create an account and gain access to our Knowledge Base and online support services. Through our online support center, you'll be able to download files, open a Support Ticket, manage your RMAs, view your account Profile and subscribe to Alerts.

To request a RMA

1. Create a user account in the RMA Support portal at **https://ipcmobile.com/support**
2. Login to your user account, and then click Create RMA Request.
3. Read the instructions provided and complete the online request form.
4. Note the assigned RMA number and write it clearly on your shipping carton.
5. Ship your equipment to us using the address provided.
