

Genuine Zebra[®] Supplies

High-Quality Media and Ribbon Solutions

Genuine Zebra printer supplies leave a superior impression.

Zebra labels, tags, and ribbons are specifically engineered for Zebra printers. And just like our printers, Zebra supplies are made to a higher standard. Genuine Zebra supplies minimize wear and tear on your printhead, reducing overall maintenance costs.

Wide Selection of Solutions

Zebra carries more than 1,000 combinations of high-quality, reliable labels, tags, and ribbons—more than 300 of which are UL-recognized and CSA-accepted. That means whatever the application, we can provide an in-stock or custom-made solution for you.

Count on Zebra supplies to:

- Minimize wear and tear on your printhead, reducing maintenance costs
- Maximize print quality from your Zebra printer
- Resist chemicals and solvents (e.g., Z-Xtreme™)
- Adhere in cold, hot, rough, or dirty environments (e.g., PolyTrans™ High Heat)
- Stock orders (Zip Ship) ship in one day. Delivery of made-to-order items is based on application requirements

Zebra Supplies

Zebra's wide variety of thermal transfer materials includes labels small and durable enough to be used on circuit boards.

Zebra Has the Media Solution for You

No single label, tag, or ribbon is right for every application. Whether you need labels for chemical drums or circuit boards, tickets for a shuttle bus, ribbons that print extra long-lasting images, or tags that withstand chemicals and solvents, Zebra has the right supplies solution. Some of our star performers:

- The 3200 ribbon is the best-performing wax/resin ribbon in the industry for print quality, durability, and chemical and solvent resistance. When combined with Z-Xtreme materials, you get unbeatable performance in the most extreme applications.
- When printed with the 5095 Performance Resin ribbon, your labels are smear-resistant in moist, abrasive, extreme-temperature, and chemical environments. This UL-

recognized and CSA-accepted ribbon provides excellent print quality at low energy levels.

- Z-Ultimate® 3000 White labels are ideal for PCB or UL/CSA compliance labeling applications. These regulation-friendly labels offer superior resistance against extreme environments.
- Z-Xtreme 3000 White labels are specially designed to resist chemicals and solvents. This synthetic, rubber-based adhesive provides quick, initial tack for low-surface-energy plastic, glass, and painted parts.

In Stock and Ready to Ship

Zebra's Zip Ship stocking program has hundreds of ribbons and labels—including synthetics—in stock and ready to go. Your order ships within one business day. Most custom media ships in as little as four working days!

Not sure what you need? Take advantage of Zebra's Supplies Samples program, and test before you buy! Just call Zebra with your request.

Custom Solutions for Unique Applications

Through Zebra's Proto X-Press program, our R&D team can make custom label/tag prototypes to meet your unique needs. In addition, they can simulate your application's environment and run tests on abrasion, outdoor exposure, low or high temperatures, peel, adhesion, release levels, and more.

A World of Experience at Your Service

Zebra's network of experienced and knowledgeable partners spans the globe. There's a Zebra partner near you who knows what products work best with your printers and your application. Our partners can put together the media and ribbon combinations that are guaranteed to give you high-quality, long-lasting, scannable images.
